Thanks Peg – I am available and would be happy to chat at 1 pm. Not sure if others are available and/or interested?

Thanks for sending your model scenario output info. I can call you at 1 today if that still works for you.

---

All – thanks for meeting with us today. I think it was productive and encouraging to hear no obvious objections to the proposal. I will keep working on the permit language and fact sheet.

In the meantime, I have attached a spreadsheet with the output from the various scenarios that I ran

with the LLRM models. I indicated what the inputs were and where in the model I changed the values so that you can (hopefully) replicate and/or check my work. It will be really helpful to have your perspective since this is the first time I have seen the LLRM model. If you have any questions or need anything clarified please reach out.

Toby and I thought it would be helpful to have a smaller, staff-level discussion with DES next week to dig into the model and the runs. Peg, it would also be helpful to hear your perspective on some questions I had about the model itself and its limitations. Toby and I are available next **Monday afternoon from 1-2 pm, Tuesday from 1-2 pm, or Wednesday from 10-11 am. Let me know if any of those times/dates work for you.**

Thanks again for your help on this!

Danielle

Danielle,  
Please send the predictive models runs to this email address.  
Thanks, Peg
